Vendor Spotlight

President's Message:

RTB Members,

I am honored to serve as your 2019 RTB AALAS President and excited to continue to work with the outstanding members serving on the Executive Council. I'd like to congratulate all our award winners that were recognized at the banquet in January, as well as all of our generous vendor sponsors that always help make the banquet a fun and memorable experience for all.

The Executive Council is excited to have a lot of great events lined up for the year, the first of which is Jeopardy Night on April 11 at NIEHS. Registration is already open, so make sure to gather a team and sign up!

The District 4 Meeting registration is also open, and we have a fabulous program put together. We have speakers coming from all over the US and topics ranging from disaster preparedness to a Koi wet lab. Keep in mind, we have limited spots in the labs and the leadership academy and those will fill up fast, make sure to register ASAP to secure your spot!

Another exciting part of our planned events is the outreach that RTB has been doing with Heritage High FFA Group. RTB and NC State cohosted an event at the NC State Vet school that allowed these students the opportunity to delve deeper into the field of lab animal science. Some of the activities included a tour of the LAR Facility, hands on labs, an enrichment discussion from BioServ, an interactive presentation from an NC State professor on translational research, and a career panel. We are continuing to work closely with this group and are planning to expand our outreach efforts with other schools.

Please feel free to reach out to us at info@rtbaalas.org with questions and suggestions, or if you are interested in becoming more involved.

Thank you for your continued support, and I am looking forward to a fantastic year!

Social Media

Quarter 1 2019

How many of you are on social media? Did you know that RTB AALAS has a social media presence? Check out our page: RTB A.A.L.A.S. There are a number of other organizations that are on Facebook as well! Some of the organizations you might want to add to your Facebook feed are listed below.

Homes for Animal Heroes

Homes for Animal Heroes (HAH) is a national program dedicated to rehoming retired research animals, mainly dogs, and sharing the facts about the critical role animals in research play in curing disease. HAH is building a network of dog experts that can effectively work with research institutions to rehome retired research dogs in every state across the country, one location at a time. Our goal is to permanently rehome these animal heroes into loving homes through a comprehensive foster-based program.

<https://www.facebook.com/homesforanimalheroes/>

Understanding Animal Research

This page regularly shares a weekly roundup of animal based research results called "This week in animal research." The features have pictures and a link to the Understanding Animal Research page. The page then links to each of the six studies featured. It's easy to share these to your own feed to help your FB friends know what discoveries animal research has led to.

<http://www.facebook.com/UnderstandingAnimalResearch>

The Foundation for Biomedical Research

This is the Facebook page for the well-known advocacy group. They regularly share items related to animal research that can help keep you in the know about what's happening in biomedical research.

<http://www.facebook.com/FBResearch>

AALAS

Our parent organization is on Facebook! Their page feed has news about deadlines and changes going on at AALAS and occasional features on services and products AALAS offers.

<http://www.facebook.com/pages/AALAS/221279445386>

The AALAS Foundation

The AALAS Foundation is very active on Facebook, hosting part of the Share that you Care campaign on Facebook and regularly posting updates on ways to work on outreach.

<http://www.facebook.com/aalasfoundation>

BE A HERO FOR OUR HEROES

Homes for Animal Heroes is a foster-based program that relies on volunteers to acclimate our canine heroes to residential living. Each foster volunteer plays a key role in preparing our precious heroes for loving, forever homes. If you love dogs, have experience training them, and appreciate the importance of biomedical research, then fostering through Homes for Animal Heroes may be for you!

Please reach out to the Regional Coordinator in your state for more information: hah.nc@naiaonline.org

You can also learn more about us on Facebook or through our website:
www.facebook.com/homesforanimalheroes | animalheroes.naiaonline.org

Research Triangle Branch (RTB) AALAS Membership Drive for 2019

To join RTB AALAS or renew your current membership:

- Institutional Members – contact your institution’s representative
- Individual and Vendor Members – please register at <https://rtbaalas.wildapricot.org/join-us>

Only \$25.00 per person for Individual Members!

Annual membership to RTB AALAS gives you:

- ⌘ Reduced pricing for branch events
- ⌘ Invites to special member-only events
- ⌘ Qualifies you for RTB awards nominations
- ⌘ Networking opportunities and job opening notifications

Questions? Email janetls@email.unc.edu or info@rtbaalas.org

RTB AALAS 2019 Events

April 11th – Jeopardy Night at NIEHS

May 17th – Carolina Tiger Rescue Work Day

June 6th-7th – RTB Hosts the District 4 Meeting, Raleigh

Key Note Speakers from AALAS & HAH from 9am-10am on Thursday and Friday
Career Recruiting Panel

Thursday Night Social at Boxcar Arcade in Raleigh, NC
Buffet lunch provided on Thursday

Fish Wet Lab - Presented by Lauren Buslinger on Thursday, June 6th

Anesthesia Dry Lab - Presented by Dr. Tyler Long and Dr. Donna Webb on Friday,
June 7th

AALAS Mini-Leadership Academy - Presented by Dr. Ann Turner, Mark Sharpless,
Lisa Secrest, Dr. William Singleton, and Courtney Nesline

For questions about D4 Registration, email info@rtbaalas.org

New RTB AALAS Website: <https://rtbaalas.wildapricot.org>

Koi Wet Lab

Thursday, June 6th from 2:00pm – 4:00pm

**Location: North Carolina State University College of
Veterinary Medicine (NCSU-CVM)**

*Transportation will be provided from the District IV Meeting Site to the
NCSU-CVM*

Course Instructor: Lauren Buslinger

Cost to Register: \$30 per person*

Attendees will learn techniques such as:

- **Anesthesia Induction**
- **Surgical Monitoring**
- **Anesthesia Recovery**
- **Venipuncture**
- **Biopsy**
- **Physical Exam**

**Space is limited to 40 registrants*

2019 District IV Mini-Leadership Academy

Friday, June 7th from 10:30am – 2:00pm

Location: NCSU McKimmon Center (District IV Meeting Site)

**Program Instructors: Dr. Ann Turner, Mark Sharpless,
Lisa Secrest, Dr. William Singleton, and Courtney Nesline**

Earn 3.0 CEUs and Certificate of Completion

**Cost to Register: \$10 per person*
(cost includes Howling Cow ice cream)**

***Space is limited to 30 registrants**

“Anesthesia 101: Nuts ‘n’ Bolts of the Anesthesia Machine and Patient Monitoring Devices”

Friday, June 7th from 1:00pm – 3:00pm

Location: NCSU McKimmon Center (*District IV Meeting Site*)

This anesthesia workshop will discuss the many components of an anesthesia machine from the oxygen flow meter to soda lime canisters. The workshop will also cover checks and balances to ensure a properly working anesthesia machine and touch on rodent specific equipment. The latter part of the discussion will cover end tidal CO₂ monitoring and pulse oximetry.

Course Instructors: Dr. Tyler Long & Dr. Donna Webb

Cost to Register: \$20 per person (includes lunch)*

**Space is limited to 15 registrants*

2018 RTB Award Recipients

- Purina ProLab Award** *Purina Mills* - Katia Pressey
- Bio-Serv Enhancement Award** *Bio-Serv* - Bethany Jenkins
- President's Award** *Charles River* - Patrick Stutts
- Managers Award** *Allentown* - Derick Pacio
- Rookie of the Year** *Optimize* - George Pyecha
- Innovation Award** *Tecniplast* - Lena Perdue
- Technician of the Year** *RTB AALAS* - Janae McKnight
- Research Technician of the Year** *Envigo* - Julie Kent

Tech Week 2019

We asked some institutions for a quick write up about their tech week

NC State

NCSU celebrated Lab Animal Tech Week with decorations of Steampunk inspired animals, gears that formed one working unit (with the name of every member of LAR on each gear), delicious foods, and a goody bag with various gifts.

UNC

Our Tech Week Committee worked hard to plan a fun week to celebrate the staff in the Division of Comparative Medicine (DCM). Starting at the beginning of the week, 3 winning staff names were drawn each day for various prizes. On Tuesday morning, everyone enjoyed Bojangles' biscuits and sweet tea brought directly to their work areas. Teams got creative with bags of office supplies and decorated a door in their work area to try and win a pizza party and trophy points. Everyone's competitive nature comes out when it's time to earn points for the DCM Tech Week trophy, although, it isn't just about earning points. Each of the 17 work teams had opportunities to socialize with coworkers during an appetizer potluck, win a jar of candy by guessing the number of foam peanuts in a container, and earn some CEUs at our guest speaker presentation. DCM even sponsored a T-Shirt contest by inviting our talented staff to design a T-Shirt that would represent who we are, then staff voted to determine the winner. On Friday, staff attending the main event were treated to a pizza lunch and an individual goody bag while watching Zootopia to end the week on a relaxing note.

THE ALL-NEW
EMERALD IVC
HIGH DENSITY HOUSING

CONFIGURE THE RACK AND CAGES TO YOUR NEEDS

- 20% more density. 20% less footprint. Ask for details.
- Up to TWELVE rows on a standard footprint.
- Cage with new features. Two configurations: Standard and Prime.
- Perfect sealing without latches. Highly transparent.
- Prime model features self-hold lid "SmarTop" and embeded enrichment.

Driven by customer needs

**Complete solutions for washing,
decontamination and sterilization processes**

Steelco's experience and understanding of the workflow within the smallest facility to the largest research centre enables us to offer the safest and most cost effective solutions for your staff to work in, enabling them to provide the cleanest conditions possible for animals in their care.

Our comprehensive range includes:

- Cabinet washer
- Cage and rack washer
- Tunnel washer
- Bedding dispensing and disposal systems
- Fully automated bottle lines
- Controlled environment
- Steam autoclave
- Loading racks

Quality Bedding & Enrichment With More Options and Solutions

Cellu-nest™

Premium cellulose bedding option that is soft, clean, and comfortable. Allows for natural burrowing and nesting behaviors, without having to add any additional nesting or enrichment material.

ALPHA-dri® +PLUS

Composed of ALPHA-dri® and twisted multi-layered paper that is cut into short mini-rolls. Once in the cage, rodents unfurl and manipulate the mini-rolls into fluffy nests.

Shepherd Shack®

Shepherd Shack® structures provide an activity center for mice to climb on, chew and shred to build a nest. They form an excellent foundation for nest building when combined with Enviro-dri® nesting material.

Enviro-dri®

In a recent study Enviro-dri® encouraged mice to build the highest quality nests. Just a handful of Enviro-dri® added to your standard bedding material is all your rodents need to build a quality dome-shaped nest.

For information, prices or samples of our enrichment products or other specialty products visit our website, www.ssponline.com and locate your nearest Shepherd distributor, or call toll-free 1-800-382-5001.
