President's Message:

Greetings RTB AALAS Members and Friends!

I am honored and thrilled to serve as your 2020 RTB-AALAS President. Thank you for all of your support and kind words thus far! I feel lucky to be able to continue working with such a supportive and dedicated Executive Board!

If you're anything like me, you probably can't quite figure out how we are already THREE months into 2020! It seems that this year has gotten off to an exciting start: with that amazing RTB banquet you (hopefully) attended in February, a behind the scenes work day in the Carolina Tiger Rescue enclosures in March, and a novel virus that has squashed our plans for April! Hopefully, with enough social distancing now, we can get back to our more normal routines soon!

I want to take a moment to thank those of you who will be working in animal facilities and labs through this pandemic situation. When we chose to work with animals for a living, we chose to work in a field that needs us 365 days a year, regardless of the concerning things going on in the world around us. Because the countless lab animals can't say it themselves, we at RTB-AALAS wish to thank you for being so dedicated to our field and for being present in our facilities, even in the toughest times.

As I eluded to above, the Technician Appreciation night previously scheduled for April 2, 2020 had to be cancelled and is tentatively rescheduled, due to corona virus concerns for everyone involved. This is great news for those of you who felt rushed to put together a Tech Talk for the April event. You now have about 5 months to put together a 10-15 minute tech talk to submit for presentation at the rescheduled event! We want to hear from anyone who has a novel idea or technician-trick-of-the-trade to share.

This is also a great time to think about studying for that next level AALAS certification if you happen to have some spare time over the next couple of months. It's also never too soon to be thinking of nominations for RTB Awards. A big congratulations goes out to the winners of this year's awards – and a massive thank you to those who took time to nominate – and to the vendors who sponsored the awards! Without you all, these awards would just not be possible.

Your Executive Board has worked hard to put together an exciting and highly varied calendar of events for the rest of the year, so stay tuned for more details in your email! If you have suggestions for a group outing, a volunteer opportunity, speaker, or any other potential branch event for the future, please feel free to let a Board member know! We would love to have your ideas and participation!

Here's to an exciting year ahead –

Emily Weston

2020 Executive Council

Social Media

How many of you are on social media? Did you know that RTB AALAS has a social media presence? Check out our page: RTB A.A.L.A.S. There are a number of other organizations that are on Facebook as well! Some of the organizations you might want to add to your Facebook feed are listed below.

Homes for Animal Heroes

Homes for Animal Heroes (HAH) is a national program dedicated to rehoming retired research animals, mainly dogs, and sharing the facts about the critical role animals in research play in curing disease. HAH is building a network of dog experts that can effectively work with research institutions to rehome retired research dogs in every state across the country, one location at a time. Our goal is to permanently rehome these animal heroes into loving homes through a comprehensive foster-based program.

<https://www.facebook.com/homesforanimalheroes/>

Understanding Animal Research

This page regularly shares a weekly roundup of animal based research results called "This week in animal research." The features have pictures and a link to the Understanding Animal Research page. The page then links to each of the six studies featured. It's easy to share these to your own feed to help your FB friends know what discoveries animal research has led to.

<http://www.facebook.com/UnderstandingAnimalResearch>

The Foundation for Biomedical Research

This is the Facebook page for the well-known advocacy group. They regularly share items related to animal research that can help keep you in the know about what's happening in biomedical research.

<http://www.facebook.com/FBResearch>

AALAS

Our parent organization is on Facebook! Their page feed has news about deadlines and changes going on at AALAS and occasional features on services and products AALAS offers.

<http://www.facebook.com/pages/AALAS/221279445386>

The AALAS Foundation

The AALAS Foundation is very active on Facebook, hosting part of the Share that you Care campaign on Facebook and regularly posting updates on ways to work on outreach.

<http://www.facebook.com/aalasfoundation>

BE A HERO FOR OUR HEROES

Homes for Animal Heroes is a foster-based program that relies on volunteers to acclimate our canine heroes to residential living. Each foster volunteer plays a key role in preparing our precious heroes for loving, forever homes. If you love dogs, have experience training them, and appreciate the importance of biomedical research, then fostering through Homes for Animal Heroes may be for you!

Please reach out to the Regional Coordinator in your state for more information: hah.nc@naiaonline.org

You can also learn more about us on Facebook or through our website:

RTB AALAS 2020 Events

February 26th- Carolina Tiger Rescue Work Day

TBD Tech Night/Compassion Fatigue talk at Duke

May 14th- Lemur Center Private Tour at Duke

June 18th- Trivia Night at NIEHS

July 17th- Rabbit Wet Lab at NC State

August 14th- Charles River Lab Site Tour, CRL Raleigh

September 22nd- Vendor Spotlight at UNC-Chapel Hill

September 23rd- Golf Tournament

October 14th- CORRAL

October 25th-29th- National AALAS in Charlotte, NC

December TBD- NC Zoo

RTB AWARDS CATEGORIES & CRITERIA

Rookie of the Year (Vendor – changes yearly)

Plaque & \$100

Criteria: 1 year or less working in an animal facility. Current membership in RTB AALAS.

Bio-Serv Enhancement or Improvement of Animal Welfare Award (Bio-Serv)

Plaque & \$250

Criteria: Member of RTB AALAS. Person nominating must also be a member of RTB AALAS. To recognize contributions of an individual who have contributed a positive impact to enrich, enhance, and/or improve the lives of animals or the environment they work in with regard to animal welfare.

PMI LabDiet® Award

Plaque & \$150 honorarium (gift card)

Criteria: Individual must have daily contact with animals and demonstrate positive attitude toward animal welfare, performance excellence, pursuit of knowledge in the field of laboratory animal care, and innovative approaches to husbandry-related problems. Formal education is not considered. Current membership in RTB AALAS.

Research Technician Award (Envigo)

Plaque & \$250

Criteria: LAT or AALAS-Certified Technologist working with the technical aspects of a research project. Current membership in RTB AALAS.

Technician of the Year Award (RTB AALAS)

Plaque & \$250

Criteria: LAT or LATG who is involved in RTB AALAS. Current membership in RTB AALAS.

President's Award (Charles River)

Plaque & \$500

Criteria: ALAT or LAT, not at a supervisory level, who exemplifies outstanding dedication and service to the field of Laboratory Animal Care. Current membership in RTB AALAS.

Innovation Award (Tecniplast)

Plaque & \$250

Criteria: Current member of RTB and National AALAS. Demonstration of commitment to innovation and ingenuity in contributions to the field of laboratory animal science. Participation in learning or information programs. Demonstrated participation in developing, improving, implementing, or providing training and education programs. Demonstrated interest in attaining additional education and training preferred. All considerations being equal, candidates having AALAS certifications will be given priority.

Managers Award (Allentown Caging Systems)

Plaque & \$250

Criteria: LAT or AALAS-certified LATG and/or Registered CMAR working as a manager or supervisor of a Research Animal Facility. Individual must be an active member of RTB AALAS and National AALAS Member.

Clayton Cisar Memorial Award (RTB AALAS Executive Council)

Plaque

Criteria: To recognize contributions of an individual to the Research Triangle Branch and to the humane treatment of animals used in biomedical research and teaching. This is not necessarily an annual award, but is awarded based on nomination from the general membership. Selection of the recipient for the award is made by the Executive Council. Individual must be an active member of RTB AALAS.

R.T.B 2020 Banquet

Past president, Emily Butler (left), handed off the gavel to the 2020 president, Emily Weston (right).

Award Winners

Ancare Rookie of the Year Award- Abbey Biggers, Duke University

Tecniplast Innovation Award- Ken Muller, UNC

Award Winners

PMI LabDiet® Award- Mark Snead, Mispro Biotech Services

Envigo Research Tech Award- Carol Anne Parks, Charles River Laboratories

Award Winners

Bio-Serv Enrichment Award- Chrissy Sherrill, Wake Forest University

Charles River President's Award: Allison Geiner, UNC

Award Winners

Allentown Manager of the Year Award- Courtney Nesline, UNC

All award winners- Congratulations!!

Carolina Tiger Rescue
Workday

Quarter 1 2020

UNC Tech Week

We had 20 teams vying to earn the most points of the week and become this year's trophy champions. Teams decorated doors using this year's theme, participated in scavenger hunt bingo, had a tailgate potluck, and took sports-themed pictures at our photo booth. Staff attended a guest speaker event with a fear factor eating component (live mealworms, anybody?). We even had a timed relay competition, featuring a Tech Week poster puzzle, free throw shooting, and building/breakdown of cages on a transport rack.

Quarter 1 2020

THE ALL-NEW
EMERALD IVC
HIGH DENSITY HOUSING

CONFIGURE THE RACK AND CAGES TO YOUR NEEDS

- 20% more density. 20% less footprint. Ask for details.
- Up to TWELVE rows on a standard footprint.
- Cage with new features. Two configurations: Standard and Prime.
- Perfect sealing without latches. Highly transparent.
- Prime model features self-hold lid "SmarTop" and embedded enrichment.

For information, contact Baxton at bvaughan@tecniplastusa.com

NEW HIGH EFFICIENCY

ARCADIA TUNNEL WASHER

15% Less Foot Print

40% Reduced Water Consumption

- Increased loading capacity
- Ergonomic loading and unloading

Laboratory and Vivarium Applications

Spire is at your side

A Complete Solution for Vivariums and Laboratories

Spire Integrated Solutions, a Chalmers Group Company, is a family of brands that produces world-class steam sterilizers, full range of washing equipment, refrigeration products and ancillary stainless-steel equipment. Built with non-proprietary parts, Spire solutions simplify maintenance and ensure ease of use for our life science and healthcare facilities. Spire's flexible programs reinforce equipment uptime and longevity while lowering the total cost of ownership. Be confident with Spire equipment at your side. Learn more at www.Spire-is.com.

When critical work is underway, equipment reliability and longevity are crucial to keeping operations in motion — that's why you need Spire at Your Side.
